SUMMARY

Full-stack developer with hands-on experience designing and deploying end-to-end web applications using React, Node.js, Express.js, and MongoDB. Shipped production-grade projects spanning REST API development, JWT authentication, Firebase-backed dashboards, and AI-integrated tools. Skilled across the full JavaScript ecosystem — from scalable backend architecture to responsive, component-driven frontends using Tailwind and ShadCN UI.

EXPERIENCE

Project Associate – BFSI Operations | *iSolve Technologies* | (Present)

- Supported BFSI workflows through structured data handling, document validation, and process execution
- Ensured data accuracy and compliance in high-volume operations
- Contributed to workflow efficiency and process coordination

Developer Intern | Wezigns

Sept 2024 – Aug 2025

- Built REST APIs using Node.js, Express, MongoDB with JWT authentication
- Developed responsive UI using React, HTML, CSS, JavaScript, WordPress
- Integrated payment gateway and supported deployment (Firebase, Vercel, Netlify)
- Improved admin dashboards with modern UI/UX enhancements
